- Currently 62 companies in Science Park, 7 companies in incubation phase, and 14 ideas in pre-incubation phase
- 9 000 m² rental space (total 12 500 m²)
- Incubation centre 3500 m²

Main sectors:

- Electronics and apparatus building
- Biotechnology
- ICT
- New Materials
- Energy

Tartu Science Park: Mission & Vision

Mission:

The mission of Tartu Science Park is **to support the start-up, development and activities** of science and technology intensive companies by offering business development services in Tartu Region.

Vision:

In 2013 Tartu Science Park is an international growth center for R&D intensive companies and a **driving force of the regional innovation system.**

Tartu Science Park: 6 goals to make our vision reality

1. Creating attractive business environment and infrastructure
2. **Developing** and enhancing **incubation services for start-ups**
3. Developing **semi-industrial labs** to support R&D in high-tech industries
4. Supporting cluster initiatives
5. Developing **flexible financing schemes** for start-ups
6. Developing human resources in an innovative and evolving organisation

Thank you!
